FOOTNOTES:												
"A 2,000 calorie daily diet is used as the basis for general nutrition advice; individual calorie needs, however, may vary. Recommended limits for a 2,000 calorie daily diet are 20 grams saturated fat and 2,300 milligrams of sodium. Nutrition information is based on standard recipes and product formulations; however, variations may occur due to differences in preparation, serving sizes, ingredients or special orders. These variations invalidate the calculations listed. Nutrition information was calculated utilizing a combination of laboratory analysis and nutrition software and is rounded according to FDA labeling guidelines."
