Note: Please check ingredient listings regularly as we are always improving our recipes and our ingredients can change from time to time. Also, because individual restaurant operators are free to follow the recommended procedures in different ways, slight variations in this information may occur. Because a lot of the data on the allergens in our ingredients are provided by each supplier, Famous Dave's of America and its employees cannot assume responsibility for their allergen information. We choose only the best supplier partners and are confident that they are being as diligent in this area as we are. Before placing your order, please let your server know if you or anyone in your party has a food allergy. We'll gladly show you our latest list. You can also find it on our website. For detailed information on food ingredients, the U.S. Food and Drug Administration has a great site: www.cfsan.fed.gov. And if you want to know more about allergies, here's another site we recommend: www.foodallergy.org.
